

BST Basketball (www.bst222.com) designed the below retail tee shirt, for the program titled "strength in numbers", a program designed to sell the below tee's through a viral marketing campaign. If everyone who receives this form, would purchase just one tee shirt, then forward this form to everyone in their email account and Facebook account asking them to purchase just one shirt to help support this program, it will allow the Northeast youth to continue to receive the development programs they need/desire.

The funds from this program will be used to supplement the out of pocket expense for the student athletes and coaches that participate in our Northeast youth development programs.
